

19A FIRE FIGHTING

HOUSE & BUNKER CLEANER.. use #100 DEGREASER, #115 ALL PURPOSE, #127 CITRUS ALL PURPOSE

RCS173 TANK PROTECTOR – Prevents rust in water tanks.

A clear odorless product designed to protect metal holding tanks against rust and corrosion

RCS178 WATER WETTER – Turf penetrant/Fire wetter/dust control

A formulated blend of non-ionic wetting agents designed to aid in wetting or reducing the surface tension of water. This allows deeper penetration, quicker drainage and drying time. Uses: Golf courses, lawn, caretakers, and fire fighting and dust control.

RCS2193 WATER WETTER/TANK PROTECTOR – Two products in one

RCS853 FIRE FIGHTING FOAM – Class A high Expansion Foam

Forms a dense foam suitable to extinguish Class A fires. High expansion foam extinguishes by a combination of 3 properties. Firstly to prevent air (oxygen) from supporting combustion. Secondly, provide a cooling and thirdly, water released from the foam contains wetting agents which facilitates penetration into the substrate and increases the rate of extinguishment.

RCS852 VAPOR SUPPRESSANT

This product is designed to reduce the fire hazards associated with flammable liquid spills. This concentrated formula will emulsify fuels, oils, and hydrocarbons with water. The emulsion will suppress flammable and combustible vapors significantly reducing the fire hazards associated with the vapors.

RCS854 AFFF 3% Fire Fighting Foam: Class B and class A fires

DESCRIPTION: Effective AFFF 3% - 6% liquid to extinguish fires quickly and to keep fires from re-ignition. Use for class A & class B fires. Not for alcohol

RCS856 AFFF Alcohol Foam: 3% class B 6% Alcohol fires

Forms a dense foam to extinguish Class A or Class B fires and Alcohol fires. This material smothers fires and prevents air from reaching the flammable materials. Lowers the heat of combustion by cooling action.
