

18A WINTER PRODUCTS

- RCS242P **WINTER RINSE** – Neutral cleaner for salt residues.
- RCS387 **D-FREEZE** – Ice preventer and melter. Non chloride
- RCS416 **SNOW PLOW WAX: Slippery coating for plow blades**
Spray on snow plow blades to create a long lasting invisible barrier that shields the surface making a "non-stick" coating allows snow to flow easily over blades surface without catching.
- RCS4187 **SAFETY MELT (NON-TOXIC LIQUID)** Eliminate or prevent ice formation

POWDERS

- RCS2187 **ICE AWAY GRANULAR**
Fast melting & traction control: Economy blend of potassium and or sodium chloride. Treated to prevent attack on cement or vegetation.
- RCS2287 **BLUE MELT GRANULE – Blue granules – fast melt non tracking**
Our RCS2187 blended with calcium and/or magnesium chloride. Use for more extreme areas where working temperature is well below freezing. Working temperature is below –15 deg. F.
- RCS3187 **ENVIRO MELT NC (Pellet/Granule) NON CHLORIDE ice melter**
Biodegradable, environmentally friendly, and works at lower temperatures than Urea alone. Blend of white pellets and granules. Working temperature is approx 5 degrees. Has lowest environmental impact. Will not cause concrete to scale. Safe on most surfaces, around wildlife and airports.
